

TO: Superintendent of Schools
FROM: Mark K. McQuillan, Commissioner
SUBJECT: Cambridge Reports
DATE: February 28, 2008

Attached are the electronic files of your district and school assessment reports developed by Cambridge Education as required under state accountability legislation. We are sending original hard copies in the mail.

Please coordinate the public release of these reports with Tom Murphy of the Department's Public Information Office. He can be reached at 860-713-6525 or thomas.murphy@ct.gov.

As part of the release, we expect that you will provide advanced copies to the members of your local board of education.

Additionally, we have attached a short summary of the district report for State legislators serving your community and a link to the department's news release, which you may want to use to brief these officials.

If you have any questions about the reports, please feel free to contact Deborah Richards at 860-713-6805.

Thank you.
