

Human Resources Report  
3-08

We have begun to look at staffing needs throughout the district. I am meeting with Mrs. Fuller to determine the needs of the new CBJ as well as all other schools.

We have begun to advertise for anticipated openings, as do all school districts. This allows us to have a better chance of getting top-notch candidates should openings occur.

As we did last year, we will hold a panel interview night for elementary positions to develop an eligibility list of candidates who are desirable and would fit our district regardless of the school in which they are placed.

We have advertised for the following positions:

Science, grade 8 and high school  
Language Arts, grades 6-8  
Physical Education, grades 6-8  
Guidance personnel, grades 6-8  
Family Consumer Science, high school  
Art, high school  
Business, high school  
Math, high school  
Bilingual, all grades  
Spanish, high school
